## EDUCATION

- **Indian Institute of Information Technology, Kota** 2024 – 2028  
*B.Tech, Electronics and Communication Engineering* CGPA: 9.16
- **Modern School, Noida** 2024  
*CBSE – Class XII* Percentage: 92%
- **Modern School, Noida** 2022  
*CBSE – Class X* Percentage: 95%

## EXPERIENCE

- **GeeksforGeeks** Jun 2026 – Dec 2026  
*Campus Mantri – Official Campus Representative* Remote
  - Appointed as the official representative of GeeksforGeeks for IIIT Kota, serving as the primary point of contact between GFG and the student community.
  - Responsible for promoting GeeksforGeeks initiatives, organizing campus-level events and activities, and acting as a brand ambassador to increase student engagement with GFG’s educational resources.
- **SMG Electric Scooters Ltd.** Dec 2024 – Jan 2025  
*Winter Intern* India
  - Architected and developed a fully functional ride-hailing web platform (Uber/Ola-style) for an internal company project.
  - Implemented the core booking flow, driver-rider matching UI, and real-time status tracking across 5+ core pages.
  - Spearheaded the product lifecycle from initial concept to a working prototype, delivering an end-to-end full-stack solution in the EV mobility sector.

## PERSONAL PROJECTS

- **LACE – Local AI Context Engine** Feb 2025 – Apr 2025  
*Privacy-first persistent memory layer for developers, running as an MCP server*
  - Tools & technologies used: Python, SQLite, MCP (Model Context Protocol), LLM APIs
  - Built a local-first developer memory system with 4 core components (SQLite extraction queue, inbox pipeline, 2 new MCP tools), enabling persistent context across AI coding sessions.
  - Implemented MCP Resources for automatic context injection, reducing manual context re-entry by ~80% per session.
- **DeployIT** Jan 2025 – Mar 2025  
*CLI tool to deploy frontend apps directly from the terminal*
  - Tools & technologies used: JavaScript, Node.js, Commander.js, File System APIs
  - Built a developer CLI with 5+ commands that auto-detects project type across 3+ frameworks via file system analysis.
  - Engineered auto-generation of commit messages and scaffolded README.md and .gitignore, cutting manual deployment setup time by ~70%.
  - Reduced boilerplate setup from 10+ manual steps to a single CLI command, improving developer experience for solo and small-team projects.
- **GramConnect** Aug 2025 – Nov 2025  
*Full-stack civic grievance redressal platform connecting citizens directly to municipal corporations*
  - Tools & technologies used: React.js, Node.js, Express.js, MongoDB, Blockchain (Ethereum/Solidity), Web3.js, TensorFlow.js, Web Speech API
  - Engineered an end-to-end grievance platform enabling citizens to submit issues via text, voice assistant, or AI-powered auto image recognition.
  - Developed a multi-stage approval system featuring a self-escalation engine that automatically routes unresolved issues after an SLA breach.
  - Integrated Ethereum blockchain for on-chain storage to establish a tamper-proof audit trail and eliminate data mishandling risks.
  - Implemented real-time cross-device state synchronization with automatic anomaly detection to maintain data consistency.

TECHNICAL SKILLS AND INTERESTS

---

**Languages:** C++, Java, Python, JavaScript  
**Frontend:** HTML, CSS, React.js  
**Backend & Databases:** Node.js, Express.js, FastAPI, PostgreSQL, MongoDB, SQL  
**Developer Tools:** Git, GitHub, CLI Tools, VS Code  
**Areas of Interest:** Full-Stack Web Development, AI/ML Tooling, Developer Productivity, Automation Pipelines  
**Soft Skills:** Problem Solving, Technical Leadership, Self-Directed Learning

POSITIONS OF RESPONSIBILITY

---

- Web Development Lead**, GeeksforGeeks Student Chapter – IIIT Kota 2024 – Present
  - Led the web development vertical for the chapter; conducted sessions on Git, GitHub, and version control workflows for chapter members.
  - Core organising team member for **Hackovation**, the chapter’s flagship hackathon.
- Web3 Lead**, Codebase – IIIT Kota 2024 – Present
  - Spearheaded Web3 initiatives and conducted web development workshops covering frontend and backend fundamentals for 30+ students.
  - Core organising team member for **HackTheChain**, a blockchain-focused hackathon, managing event logistics, problem statements, and participant onboarding.

ACHIEVEMENTS

---

- Prize Winner – ZINNOVATIO 3.0**, SMG Award 2024
- 4+ Hackathon Qualifier**, Including : SHIELD 1.0, and Odoo x GCET Hackathons 2025 – 2026
